PENNSYLVANIA DEPARTMENT OF AGRICULTURE

Organization and Services

THE PENNSYLVANIA DEPARTMENT OF AGRICULTURE is essentially a service agency created by legislative enactment to deal with administrative, regulatory, investigational and educational problems which can best be solved through public rather than individual action. The organization provides for coordination and cooperation with the Pennsylvania State College and the U. S. Department of Agriculture. The Department conducts the official Pennsylvania Egg Laying Test, and operates through the following bureaus:

Animal Industry

Charged by the law with the prevention, control and eradication of transmissible diseases of animals and poultry, including tuberculosis and Bang disease of animals in cooperation with the Federal Government.

Demonstrates to veterinarians, control methods for transmissible animal diseases.

Supervises vaccination for the prevention of hog cholera, anthrax, black leg, fowl pox and hemorrhagic septicemia.

Supervises and controls the sanitary conditions in slaughter houses and meat markets; ante and post-mortem examination of food animals and inspection of meat and meat food products for conditions that might affect their wholesomeness for human consumption.

Inspects, licenses and furnishes information as to breeding, soundness and conformation of stallions and jacks standing for public service.

Enforces laws governing the sale and use of veterinary biological products.

Maintains laboratory for diagnostic research and experimental projects.

Enforces law requiring licensing of dogs and providing for protection of livestock and people from attacks of uncontrolled dogs; appraises and determines values of damages done by dogs; pays damages to owners for livestock and poultry.

Cooperates with and assists practicing veterinarians in the supervision of the livestock at the State institutions.

Administers the law requiring licenses for livestock dealers and brokers.

Assists practicing veterinarians in diagnosing, correcting and preventing breeding difficulties in animals.

Inspects various classes of livestock at Community Sales.

Foods and Chemistry

This Bureau has two chief functions: The safeguarding of the public health through rigid supervision of the food supply; and the prevention of fraud and deception in the manufacture, distribution and sale of food and food products and materials used for agricultural purposes.

These functions are performed through enforcement of the General Food Law of the Commonwealth which protects consumers against adulterated,

misbranded, harmful, deleterious, or unwholesome food. This statute is reinforced by special legislation applying to bakery products, butter, carbonated and still non-alcoholic drinks, coffee and chicory, cream, eggs, fruit syrups, ice cream, lard, meat, milk, oysters and sausage.

In addition, the Bureau is charged with enforcement of the agricultural products laws, covering fertilizers, feeding stuffs, liming materials, insecticides and fungicides, linseed oils, paints and naval stores. These laws are designed to prevent deception and to maintain standards and quality.

The Bureau regulates and issues licenses for the manufacture and sale of oleomargarine, it licenses and regulates egg-opening plants, carbonated beverage and still drinks plants, bakeries, ice cream plants and cold storage warehouses which are regularly inspected.

Manufacturers, importers, selling agents and ultimate users of feeding stuffs, fertilizers, liming materials for agricultural purposes, linseed oils, paints, putty, turpentine, and insecticides and fungicides are protected through periodical inspections and analyses of their products and by the publication of the results of the analyses of the first three named commodities. Registration of feeding stuffs, fertilizers, liming materials, insecticides and fungicides is required, and licenses to sell the products are issued annually.

Charges for analyses are: Feeding stuffs for resident manufacturers or purchasers, \$1.00 each; linseed oils for resident dealers, \$1.00 each; liming materials for resident producers or manufacturers, \$5.00 each (limit 2 per year).

Markets

Investigates and assists in the marketing of farm products; chiefly fruits and vegetables, poultry, baby chicks, eggs and potatoes.

Compiles and distributes periodic marketing information.

Advises growers on transportation of agricultural products.

Assists cooperative associations and auctions.

Establishes standard grades of farm products and maintains inspection.

Supervises operation of the Pennsylvania Official Egg Laying Contest.

Enforces the Fresh Egg Law, the Apple-Peach-Potato-Grape marking laws, baby chick regulations, and issues licenses to dealers handling agricultural products.

Plant Industry

Tests agricultural seeds for purity and germination and enforces State Seed Law.

Inspects orchards, parks, farms, and plant imports for injurious insects and plant diseases; plans and executes programs for the control and eradication of plant pests.

Inspects and certifies Pennsylvania nurseries and all dealers in and agents for nursery stock.

Makes investigations for the control of injurious insects and plant diseases including field tests of insecticides and fungicides.

Enforces laws governing apicultural practices, disease control and housing.

Places and enforces quarantines and carries on eradication campaigns against insect pests and plant diseases.

Inspects and certifies potatoes, small grains, peppers and tomatoes for seed purposes.

Maintains reference collections of insects, plant diseases, plants and seeds and identifies specimens.

Cooperates with the United States Department of Agriculture in many phases of plant pest control.

Crop Reporting and Information

Assembles and disseminates essential statistics and facts pertaining to the agriculture of the State from monthly reports rendered by hundreds of volunteer crop correspondents, information which assists the producer in his sales and interests all industries which deal with agricultural products.

Cooperates with the Bureau of Agricultural Economics, United States Department of Agriculture, in crop and livestock reporting and publishes summaries of the data, as follows: An annual "Crop and Livestock Report" giving county estimates; semi-annual reports on the pig crop; quarterly reports of grain stocks in mills and elevators; monthly National and State reports on crops, livestock, hatcheries, dairy and poultry products, and prices received by farmers; special seasonal reports on potatoes, fruits, grapes, tobacco and truck crops; periodic reports on honey, maple products and farm real estate, and occasional reports on turkeys, broilers, feeder cattle, farm income and agricultural outlook.

Cooperates with the Weather Bureau and the Bureau of Agricultural Economics in compiling and releasing a weekly weather and crop report throughout the growing season; and with the Department of Internal Affairs and the Bureau of Agricultural Economics in compiling and releasing an annual report of manufactured dairy products.

Engages in special activities in furtherance of the war effort, including surveys to obtain basic agricultural price data.

Conducts Department's editorial and publicity work, including the publication of the *Weekly News Bulletin*, official organ of the Department.

Comptroller's Office

Performs all accounting, auditing, and finances of the Department, its bureaus, boards or agencies.

Establishes and maintains the required accounting and budgetary control systems operated in conjunction with the Budget Bureau; is responsible for the preparation and control of all estimates of expenditures, for the preparation and audit of all appropriation requisitions, and for the preparation, audit, and approval of all requisitions for supplies or purchase requests.

Prepares monthly reports by appropriations, and cost reports by bureaus or functions; has control over the departmental storeroom and accounting records.

The Comptroller acts as agent for the Department of Revenue, and maintains or supervises the maintenance of all records relating to revenue and receipts for the department proper, departmental administrative boards, commissions, and agencies.

Available Farmers' Bulletins and Leaflets of the United States Department of Agriculture

FREE COPIES—Only one each of ten, or ten copies of one, of the unpriced publications listed below will be sent free in response to a single request, as the Department's supply is limited.

Address requests for free copies to:

Division of Publications
Office of Information
U. S. Department of Agriculture
Washington, D. C.

When ordering publications for which a cost **price** is indicated (5 and 10 cents each), include payment with order and mail to:

Superintendent of Documents
Government Printing Office
Washington, D. C.

CHECK YOUR ORDER CAREFULLY—The bulletins you wish should be listed in **numerical order** and your name and address should be printed plainly. Your cooperation in this matter will be appreciated and will help fill your order more promptly.—U. S. Department of Agriculture.
